REPRESENTATIONS OF AFFINE HECKE ALGEBRAS

Springer Sep 1994, 1994. Taschenbuch. Book Condition: Neu. 23.5x15.5x cm. This item is printed on demand - Print on Demand Neuware - Kazhdan and Lusztig classified the simple modules of an affine Hecke algebra H_q ($q \in \mathbb{C}$) provided that q is not a root of 1 (Invent. Math. 1987). Ginzburg had some very interesting work on affine Hecke algebras. Combining these results simple H_q -modules can be classified provided that the order of q is not too small. These...

Reviews

I just started reading this article ebook. It really is written in easy phrases and not difficult to understand. I am just very happy to tell you that here is the very best pdf we have read during my individual life and might be the very best ebook for actually.

-- **Camren Kivalis**

This ebook is very gripping and exciting. It is one of the most amazing books we have studied. It has been printed in a remarkably easy way and it is only after I finished reading this book through which really transformed me, affected the way I think.
