

Earth Science Studies in Support of Public Policy Development and Land Stewardship, Headwaters Province, Idaho and Montana: Usgs Circular 1305 (Paperback)

Filesize: 6.93 MB

Reviews

*Absolutely one of the best pdf I actually have possibly read. Better than ever, though i am quite late in start reading this one. I realized this book from my dad and i encouraged this ebook to discover.

EARTH SCIENCE STUDIES IN SUPPORT OF PUBLIC POLICY DEVELOPMENT AND LAND STEWARDSHIP, HEADWATERS PROVINCE, IDAHO AND MONTANA: USGS CIRCULAR 1305 (PAPERBACK)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The USGS Headwaters Province project in western Montana and northern and central Idaho was designed to provide geoscience data and interpretations to Federal Land Management Agencies and to respond to specific concerns of USDA Forest Service Regions 1 and 4. The project has emphasized development of digital geoscience data, GIS analyses, topical studies, and new geologic interpretations. Studies were designed to more completely map lithologic units and determine controls of deformation, magmatism, and mineralizing processes. Topical studies of geologic basement control on these processes include study of regional metallogenic patterns and their relation to the composition and architecture of underlying, unexposed basement; timing of igneous and hydrothermal systems, to identify regionally important metallogenic magmatism; and the geologic setting of Proterozoic strata, to better understand how their sedimentary basins developed and to define the origin of sediment-hosted mineral deposits. Interrelated products of the project are at complementary scales.
