A New Nation Bibliographical Note a selection from CHAPTER I - THE PIONEERS The United States of America has been from the beginning in a perpetual change. The physical and mental restlessness of the American and the temporary nature of many of his arrangements are largely due to the experimental character of the exploration and development of this continent. The new energies released by the settlement of the colonies were indeed guided by stern determination, wise forethought, and inventive skill; but no one has ever really known the outcome of the experiment. It is a story of faith, of Effort, and expectation, and desire, And something evermore about to be. An Alexander Hamilton may urge with passionate force the adoption of the Constitution, without any firm conviction as to its permanence. The most clear-sighted American of the Civil War period recognized this element of uncertainty in our American adventure when he declared: We are now testing whether this nation, or any nation so conceived and so dedicated, can long endure. More than fifty years have passed since that war rearmend the binding force of the Constitution and apparently sealed the perpetuity of the Union. Yet the gigantic economic and social changes now in progress are serving to show that the United States has its full share of the anxieties which beset all human institutions in this daily altering world. We are but strangers in an inn, but passengers in a ship, said Roger Williams. This sense of the transiency of human effort, the perishable nature of human...
